

SLC45R Reference Console

Brighter Illumination for Large Screen Applications

Designed specifically for today's large screen applications, the Christie Reference Console is the proven champion in screen illumination.

By providing even-light distribution and brighter illumination for 60 foot screens without damaging film, the Reference Console has proven itself as the ideal choice.

The 15" reflector has a unique multi-layered dichroic coating, which protects the film from harmful IR energy, while providing the maximum brightness and uniform distribution. The Reference Console comes complete with motorized bulb alignment, providing precise alignment of the lamp for maximum efficiency.

To extend the lamp life, a pressurized system of high capacity blowers effectively cools the bulb and reflector.

The Reference Console is equipped to handle the larger Xenon lamps, from 4500 watts to 7000 watts, including the specially engineered 6000 watt lamp, the CXL-60. A factory aligned laser optical bench provides perfect alignment, eliminating lengthy installation procedures.

Comes standard with motorized bulb alignment offering additional choice of the following options:

- Patented automatic bulb focus
- Motorized 3-Axis Bulb Adjustment (MOT)
- 57" sound rack, mounted
- IR filter
- Floor mount sound racks
- External exhaust blower

APPLICATIONS

- Cinema/exhibition

Project. Present. Perform.

Reference Console SLC45R • Specifications

Weight and Dimensions

- 660 lbs
- 71" H x 24" W x 42" D

Power Requirements

- 208/230 VAC
- 60Hz
- 40 amps
- 110-205 current rating

Also Available As:

- 380/415 50Hz, specify when ordering

FEATURES

- 3-axis bulb adjustment mechanism for precision alignment.

- Adjustable output rating, controlled current power supply.

- Uses higher watt HTP lamps, without harming film.
